

To the attention of the Director

The specialists of LLC “SPS-PROJECT” have experience in the comprehensive preparation of project documentation, including obtaining approval from the state expertise and undergoing environmental impact assessment (EIA) procedures for the following facilities: ПрАТ «МК «Азовсталь». «Капітальний ремонт доменної печі №3 (реконструкція з новим будівництвом)».

1. PJSC "AZOVSTAL Iron & Steel Works": “Capital repair of blast furnace No. 3 (reconstruction with new construction)”.
2. PJSC "Ilyich Iron and Steel Works": “Development of design documentation for calibrated and shaped stand groups of the VTM-160 rolling mill”.
3. PJSC "Ilyich Iron and Steel Works": “Development of design documentation for the discharge mechanism and metal structures of the finished product pockets of the VTM-160 rolling mill”.
4. PJSC "AZOVELEKTROSTAL": Development of the working project and design estimate documentation “Piping of autogenous oxygen to the network of PJSC ‘Ilyich Iron and Steel Works’”.
5. PJSC "ZAPORIZHKOKS": Technical re-equipment of ammonia water settling tank No. 8 at the condensation section of the gas purification workshop.
6. PJSC "Ilyich Iron and Steel Works": Project development “TSC. Energy Building Section. Reconstruction of energy equipment complex with expansion of the existing building”.
7. PJSC "Ilyich Iron and Steel Works": Project “Reconstruction of secondary limestone sorting system (with installation of a new bag filter) in the lime-burning shop of PJSC ‘Ilyich Iron and Steel Works’, 1 Levchenka St., Mariupol”.

8. PJSC "Central GOK": Technical re-equipment of pellet production plant equipment.
9. PJSC "Ilyich Iron and Steel Works": "Reconstruction of the brine preparation system for the CWP-4 site at the CHP of PJSC 'Ilyich Iron and Steel Works', 1 Levchenka St., Mariupol".
10. PJSC "Ilyich Iron and Steel Works": COC. "Development of design and estimate documentation at the 'Project' and 'Working documentation' stages with a positive conclusion from the design expertise for the replacement of the OKG-160 U4 cooler boiler, boiler frame, and circulation pipelines".
11. PJSC "Ilyich Iron and Steel Works": Technical re-equipment of the excitation system of T-12-2UZ turbo-generators at the CHP of TUES of PJSC "Ilyich Iron and Steel Works".
12. PJSC "KAMET-STEEL": "Reconstruction of the blast furnace shop's bunker overpass with installation of a batch conveyor and removal of 0–5 mm agglomerate at BF-12 section" (technological part).
13. LLC "VINNYTSIA POULTRY FARM", "Processing Complex" branch: "New construction of a storage and shipping section for edible fat at the Processing Complex branch, 14 Khlibozavodska St., Ladyzhyn, Vinnytsia region".
14. LLC "Aktiv-Garant DM": "Reconstruction of the existing building into a groats production workshop at 73 Heroiv Krut St., Shpola".
15. PJSC "KAMET-STEEL": "New construction of quenching tower KB-5 at PJSC 'KAMET-STEEL', 1 Koleusivska St., Kamianske".
16. PJSC "KAMET-STEEL": "Reconstruction of the dewatering systems of the production site at PJSC 'KAMET-STEEL', 18B Soborna St., Kamianske".
17. PJSC "KAMET-STEEL": "New construction of an end gas cooler at the benzol-scrubber unit of CUPCC, 1 Koleusivska St., Kamianske".
18. PJSC "ArcelorMittal Kryvyi Rih": Feasibility Study "New construction of a granulated slag grinding complex".
19. PJSC "Zaporizhstal": "Development of design and estimate documentation for the installation of a hot blast stove for blast furnace No. 2".
20. Private investor: Development of design and estimate documentation for a "Multistorey residential complex in the Mirabad district, Tashkent".

21.Private investor: Development of design and estimate documentation for a “New construction of a mid-rise hotel located at Temiryolchilar St., Mirabad district, Tashkent”.
